Full 24/7/365 operation throughout the UK.

REFCOM Company Number: REF1001154

Environmental Policy and Standards of Ambient Control Refrigeration and Air Conditioning

Ambient Control believes that we have a responsibility to care for and protect the environment in which we operate. We are fully committed to improving environmental performance across all of our business activities, and will encourage our business partners and members of the wider community to join us in this effort. *Although we do not directly hold ISO 14001 the company works towards the guidelines specified in the framework.*

Ambient Control recognises our key impacts to be in the area of:

- Energy use
- Raw material use
- Emissions to air/water
- Water use
- Transport
- Procurement

We will strive to:

- Adopt the highest environmental standards in all areas of operation, meeting and exceeding all relevant legislative requirements
- Assess our organisational activities and identify areas where we can minimise impacts
- Minimise waste through careful and efficient use of all materials and energy
- Purchase sustainable products wherever feasible (e.g recycled, FSC or low environmental impact products and energy from renewable sources)
- Publicise our environmental position
- Train employees in good environmental practice and encourage employee involvement in environmental action
- Reduce risks from environmental, health or safety hazards for employees and others in vicinity of our operations.
- Adopt an environmentally sound transport strategy
- Aim to include environmental and ethical considerations in investment decisions where appropriate
- Assist in developing solutions to environmental problems
- Continually assess the environmental impact of all our operations

Ambient Control have developed a series of action plans to supplement each of our environmental policy objectives.
Ambient Control will periodically review performance and publish these results on our website www.ambientcontrol.co.uk
