TEL: (01452) 303311 FAX: (01452) 330682 EMERGENCY 24 HOUR: 07623912498

### Environmental policy and standards

AMBIENT CONTROL Air Conditioning has developed an environmental policy that takes into account our responsibilities to guide our clients in respect of Global Emissions, Greenhouse Gas Emissions and Refrigerants (CFC's).

Within our design department all projects are designed with Energy Efficiency in mind utilising technology such as Heat Pump enhanced Air Conditioners and Energy Saving control schemes.

We are conscious of our role in respect of Ozone Depleting Refrigerant Gas and have trained all engineers in Refrigerant Handling to recognised industry standards.

Within our role as one of the UK's leading Air Conditioning companies environmental issues are regularly considered by the owners and appropriate action taken including training given to our Staff Members.
